TEAM BUILDING

CONCEPT

THE ESCAPE GAME

Do you want to give your employees an **original experience**? **Create bonds and build team spirit**? Bring them out of their comfort zone?

Mixing work and relaxation, Escape Games are an innovative concept to **unite a team** around a fun activity: ideal for a successful team building event.

Because of their **short format**, our games fit perfectly into your corporate events (strategic meetings, seminars, cohesion sessions, training, etc.).

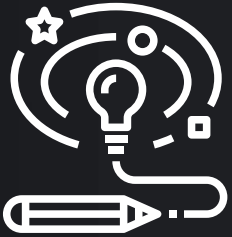

CONCEPT

During the game, **the hierarchy no longer exists**, only **collaboration** counts.

It is a context where the issues will push everyone to reveal themselves, express innovative ideas, solve problems and leave the room motivated and stimulated.

To succeed in their mission, the team will have to demonstrate excellent **communication**, an acute **sense of observation**, a quality of **reflection**, and a management of stress without flaw.

Total time at our location for one round of games is approximately **80 minutes**.

Games are not physical, no special clothing required.

All games are in **English**.

PORTABLE GAMES

Final Exam is an exciting escape room style game but instead of breaking out of a room you have to disarm a ticking bomb!

The game arrives as two small briefcases and requires minimal space.

These games are perfect for both small and large events. We have multiple units which are identical and they can be hired for as many hours as needed.

These games are brought directly to your location by a game master who will prepare the portable escape rooms to be played and will be available throughout your event.
